

## SEVEN HUNDRED OGDEN STUDENTS WIN PALMER AWARDS FOR WORK IN PENMANSHIP; LIST IS ANNOUNCED

For the past two years the Palmer Method of Penmanship has been taught in the Ogden city schools under the general supervision of Miss Florence Turner, who reports that excellent progress has been made. Some seven hundred of the students have won the C and D rewards offered by the A. N. Palmer company. The C reward is a button, and the D reward a pin.

Their names, school and grades follow:

### FIVE POINTS SCHOOL.

## Last & Thomas

## CAUSE OF LOW SILVER SOUGHT

Nevada Senator Talks on  
"Combine" to Keep Down  
the Selling Price

WASHINGTON, May 15.—Decline in silver prices and the possibility that there is a "combine" to keep down the selling price of the American-produced metal were discussed in the senate today by western members.

"Producers should know that the American government is ready to buy all American-produced silver at \$1 an ounce," said Senator Pittman, Democrat, Nevada, pointing out that the current quotations were below that price. "I have been to the treasury department and they are now preparing a certificate for the producers to use. We melted 200,000,000 dollars during the war for silver supply and the government under terms of the law will replace that at \$1 an ounce, even though Mexican and other silver should go to 50 cents an ounce. "There has been a remarkable fall in silver prices, due, I am told, to the fact that Germany and France are both melting up their silver currency because of the exchange situation, while Asiatic countries are temporarily out of the market."

Does the senator think he has enumerated all of the reasons for the fall? Senator Thomas, Democrat, Colorado, asked. "I am sure the reasons I have given are factors in the situation," Senator Pittman replied. "There may be other factors, an international combine to bear down prices, but this government, I am sure, is not a party to it."

"I hope not," Senator Thomas said. "Certainly the same old boycott, which in the years before the war operated at all times for its own profit to keep down silver prices below the cost of production is still at work and effectively."

## STEEL INDUSTRY IS PARALYZED

Railroad Situation Becomes  
More Acute; Copper Mar-  
ket Firmer

NEW YORK, May 15.—The steel industry is still paralyzed owing to the railroad situation, which has become more acute because of the extension of the railroad men's strike. The curtailment is still severe at Pittsburgh, Youngstown, Detroit and Buffalo, where most plants are operating under fifty per cent.

Dependent on alloy and fuel specimens, iron producers are in serious circumstances. Deliveries are very light due to stagnated traffic and finished materials piled high in yards. The future market remains firm with a \$1 advance over last week's number 2 valley furnace, Malleable valley and Gray Forge at Pittsburgh which now quoted \$44, \$44 and \$43.50, respectively. The copper market is strong with leading operators making good sales

at 19½ for Port and second quarter, and 19½ for July delivery, refusing all orders after that month. The increased demand and export arrangements with French consumers are responsible for the firm past.

Lead is quiet, despite the reduction of ¼c by leading interests. The outside market remains higher than producers' prices although the price tone is on the demand.

The zinc market is very weak, as buyers show indifference. Light demand weakened antimony during the week and the price is easier at 10 cents with 10½ marked by retailers.

NEW YORK, May 15.—Criticism of the Presbyterian new era movement and the Inter-Church World movement by the presbyteries of Pittsburgh, Pa.,

Seattle, Wash., Chillicothe, O., St. Louis, Mo., and Philadelphia and a recommendation that the Presbyterian church withdraw from the last named \$200,000,000 project, will be heard at the annual meeting of the Presbyterian general assembly in Philadelphia next week, J. B. Wootan, publicity director for the Presbyterian church in the United States, announced here today.

The Seattle presbytery, he said, declares that "the expenditures of the Inter-Church World movement are excessive, needless and destructive." Seattle, supported by the presbyteries of Riverside, Cal., and others, he said, declares that the "new era committee would be more effective and efficient if its operations were under the immediate direction of the boards of the Presbyterian church." The objectors will ask for "a limit of authority and for a limit of the committee's expenses."

ENDORSE ERZBERGER.  
BERLIN, May 15.—Matthias Erzberger, former vice chancellor and minister of finance, has been accepted as candidate for the reichstag by the Wuerttemberg Centrist party. The candidates of the National People's party include the well known Captain Karl von Mueller, of the German raider Emden, and Captain Forstner, the submarine commander.
